Best Mates was started in October 2022 and is now a registered charity; it was formed by three guys who had previously been through extremely difficult periods in their lives, periods where they have relied on each other for various levels of support. Getting through these challenges made them realise that the value of a best mate could not be underestimated, they also realised that they could help others and roll this concept out on a much wider scale and support people with their own and life challenges.

Not everyone is lucky enough to have a best mate; someone they can call on, borrow money from or just have that person to listen and provide advice and/or support. Best Mates was established to provide a platform for anyone to use without the feeling of being a burden; whether you are facing mental health issues, debt, grief, addiction, homelessness, unemployment, or any other challenge that life can throw at you, be assured there is a Best Mate on hand to help you when you need it.
